

Threaded Coupling

There is a difference between thread and shank diameters for threaded rods

It mentions that

.confusion often arises between the two

The thread rolling process used by quality rod manufacturers raises the surface of the rod resulting in a thread diameter (B) that is greater than the shank diameter (A). All threads are Uni National Coarse (UNC-2A)

Part No.	Type	Length
DAR-CD58	5/8"	70
DAR-CD34	3/4"	70

CERTIFICATE OF COMPLIANCE

Certificate Number UL-US-2339362-1
Report Reference E528558-20230921
Date 28-Sep-2023

Issued to: DAR for Engineering Supplies
16080 Obour City, 5 Th District Zone, Block 15 , Building
Number
Cairo 11511
Egypt

**This is to certify that
representative samples of** KDER - Grounding and Bonding Equipment
See Addendum Page for Product Designation(s).

Have been evaluated by UL in accordance with the
Standard(s) indicated on this Certificate.

Standard(s) for Safety: UL 467, Edition 11, Issue Date 2022-04-29

Additional Information: See the UL Online Certifications Directory at
<https://iq.ulprospector.com> for additional information

This Certificate of Compliance indicates that representative samples of the product described in the certification report have met the requirements for UL certification. It does not provide authorization to apply the UL Mark. Only the Authorization Page that references the Follow-Up Services Procedure for ongoing surveillance provides authorization to apply the UL Mark.

Only those products bearing the UL Mark should be considered as being UL Certified and covered under UL's Follow-Up Services.

Look for the UL Certification Mark on the product.
