

U-Bolt Rod to cable Clamp [GUV - Type]

The U-Bolt Earth rod to conductor clamp, manufactured by DAR, is a high-strength copper alloy clamp designed to connect a conductor to an earth rod. This clamp provides a secure and reliable connection between the conductor and the earth rod, ensuring a low-resistance path for fault current to flow to earth. The U-Bolt clamp is easy to install and compatible with a variety of conductor sizes, making it an essential component in grounding and bonding applications.

Part No.	Rod Size
DAR-UC58	5/8"
DAR-UC34	3/4"
DAR-UC58-S	5/8"
DAR-UC34-S	3/4"

Tape Size (mm²)

16 - 300 mm²

16 - 240 mm²
