

H.D.G Steel Terminal lug

DAR's H.D.G Steel Terminal Lugs are expertly designed to facilitate connections to a terminal. They can be conveniently mounted to any post, stud, or chassis and are available in a diverse range of shapes and sizes. These lugs are specifically designed for use with H.D.G Steel Wires. They are manufactured in compliance with the **ASTM 123/A 123M – 02** standard, ensuring their quality and reliability.

Wire Size	Ø	D	D2	B	L
75	13	17	11.5	24	90
108	13	19	14.5	28	90
